Welcome to Fur and Family First Companion Dog Breeders Inc.

Why do you breed these breeds?:

Prior to membership we want to know that you have some knowledge about what breeding is about. We would like to hear about the breeds you are breeding and what your goals are. This is in no way a test and we don't expect any essays. However, we want to make sure that you have some understanding of the complexity of breeding. You are required to complete this form prior to joining, and acceptance into the organisation will require a completed submitted form.

Learning is a lifelong journey and we can undertake this journey regarding breeding dogs with you
